AZ CORP COMMISSION
DOCKET CONTROL

Arizona Corporation Commission

DOCKETED

JUN 9 2011

DOCKETED BY

[Signature]

IN THE MATTER OF THE
APPLICATION OF FARMERS
WATER CO., AN ARIZONA
CORPORATION, FOR A
DETERMINATION OF THE
CURRENT FAIR VALUE OF ITS
UTILITY PLANT AND PROPERTY
AND FOR INCREASES IN ITS RATES
AND CHARGES FOR UTILITY
SERVICE.

DOCKET NO. W-01654A-08-0502

**FARMERS WATER CO.'S NOTICE
OF FILING WATER LOSS
REPORTS**

Farmers Water Co. ("Farmers") hereby files its Water Loss Reports for the Sahuarita (PWS10-048); Continental (PWS10-049); Santa Rita Springs (PWS10-213); and Sahuarita Highlands (PWS10-414) water systems for the calendar year 2010.

Decision No. 71510 (March, 2010) adopted Staff's unopposed recommendation in the case, that Farmers file a Water Loss Report with Docket Control as a compliance item in this docket. Such report is to indicate the water loss for each system for the year end December 31, 2010. If water loss for any of the systems is not less than 10%, the report should contain a description of corrective measures demonstrating how the company will reduce its water loss to less than 10% and/or a detailed cost analysis and explanation demonstrating why water loss reduction to less than 10% is not cost effective.

Based upon the above-referenced Water Loss Reports which are attached here as Exhibit A, water loss for the Sahuarita, Continental, Santa Rita Springs, and Sahuarita

1 Highlands systems for calendar year ending 2009 was 3.72%, 7.56%, 1.80% and 3.40%
2 respectively. Because water loss for each of these systems was below 10% for calendar
3 year 2010, no further reporting requirements were recommended.

4 RESPECTFULLY SUBMITTED this 9th day of June, 2011.

5 SNELL & WILMER L.L.P.

Note: Negative numbers for Difference in Gallons is within storage capacity of the 200,500 gallon storage tank. One foot of storage tank equals 12,500 gallons, thus March gallons sold dropped the level in the storage tank 3 1/2 feet. This Public Water System was constructed at the height of the housing boom. There are 153 lots available. Currently, there are only 30 houses and two (2) irrigation meters. As a result, the well runs every 2-4 days.
